

TC 1.10 CTIC Subcommittee Meeting
June 25th, 2012 (Monday), 4:15-5:30 pm
San Antonio, TX

1. Call to Order – by Annette Dwyer
2. Introduction of Members, Guests, and Liaisons
Attendees: Annette Dwyer (Subcommittee Chair) - annette.dwyer@munters.com
Dharam Punwani (Subcommittee Member) - dpunwani@avalonconsulting.com
Ainul Abedin (Subcommittee Member) cogen.unlimited@gmail.com
3. Agenda approved.
4. Minutes of the Jan 2012 subcommittee meeting was approved.
5. Discussions
 - a. Program – No programs at this time
 - b. Research – Dharam submitted proposed RTAR – attached This RTAR was rejected by the research committee. Their comments stated that they feel a project such as this should be funded by DOE or EPA. The committee felt that it does relate to cogen systems if you are using turbines. We will not resubmit.

Other thoughts on how to pursue this topic outside of ASHRAE research: EPA – Bruce Hedman with ICF International – they developed the emissions savings methodology for CHP systems – Dharam will contact him to see if he is interested in helping with the CTIC future.

The design guide to be updated, once it qualifies in a few years.
 - c. Website – CTIC subcommittee content (and main TC1.10) website to be managed by Dragos Paraschiv. Annette to coordinate creation of a CTIC subcommittee page.
 - d. Handbook – The 2012 Handbook has been printed – Annette would like to step down as CTIC handbook chair due to duties as TC1.10 Handbook Liaison. To be discussed in the main TC meeting under membership.
 - e. Liaison Reports - none
6. Old Business –None
7. New Business – meeting time for Dallas moved to 6-7:30 pm
8. Adjourned.
