

**ASHRAE TC 7.6 Building Energy Performance  
Winter Virtual Program Sub Committee  
Thursday January 14, 2021 12:00 EST  
Meeting Notes**

**Program Sub Committee Meeting, Virtual Winter Meeting 2021**

**Chair Notes: Program Submissions for Phoenix are now due February 22<sup>nd</sup>, 2021**

**From Publications:** TC authors may find it a daunting task to put the effort into putting material together for a Special Publications book, especially to time it takes. Please think of writing an article for the *ASHRAE JOURNAL* instead. Your content will not take as long to develop and will get to your audience quicker. You might get feedback on your topic that will lead to taking the time to create a special publication. If you have any questions regarding publishing in the *ASHRAE JOURNAL* contact Sarah Foster, Editor.

**Winter Virtual Programs**

**Sponsored Programs**

**Forum 1** - Advanced Energy Design Guides: Zero Energy and Beyond, What is Next? (LIVE)

Tuesday, February 9, 4:30 PM - 5:30 PM

**CPS 1** - Energy Master Planning for Resilient Public Communities: Best Practices from Europe and North America

**CPS 2** - Defining and Quantifying the Resilience of Electrical and Thermal Energy Systems in Critical Infrastructure

**CPS 3** - Best Practices for Building Envelopes and HVAC in Extreme Climates

**Seminar 47** - Design to Achieve Net-Zero: Data Sharing and Interoperability Between Building Asset, Design, Rating and Analysis Software Tools

**Co-Sponsored Programs**

**Seminar 40** - Building-Integrated Photovoltaic Envelope for Cold Climates: Here Comes the Power of the Sun

**Seminar 58** - How Will Climate Change Affect Standards, Guidelines, and the Way We Design? Part 1: Why Climate Change May Affect the Design of Buildings and Their Systems

**Seminar 59** - How Will Climate Change Affect Standards, Guidelines, and the Way We Design? Part 2: Application to Loads Calculations and Design Conditions

**Seminar 60** - How Will Climate Change Affect Standards, Guidelines and the Way We Design? Part 3 Decarbonization by Smart Grid and Adaptation to Northern Warming

**Follow up on Previous Submission Ideas**

- Bruce - Standard 105 going into revision – potential seminar for Phoenix
- Annie – Cx group seminar – TBD
- John – Florida Tech Workshop
- John - BEQ Half day course with ALI
- Jim Kelsey & Michel Deru –Low GWP options
- Energy use of Buildings during COVID-19 – CR Follow up with, Adam Hinge, John C, Amanda Webb
- Alexander – paper sessions
- Review standard 228 – potentially in Phoenix

**ASHRAE TC 7.6 Building Energy Performance  
Winter Virtual Program Sub Committee  
Thursday January 14, 2021 12:00 EST  
Meeting Notes**

**Future ASHRAE Conferences**

February 9-11, 2021 – Virtual – Technical Chair – Maggie Moninski  
June 26-30, 2021 – Phoenix, AZ – Technical Chair – Christine Reinders  
January 31- Feb. 2, 2022 – Las Vegas, NV – Technical Chair – Raul Simonetti  
June 25-29, 2022 – Toronto, ON – Technical Chair – Ryan MacGillivray

**Speaker Resources**

**Phoenix Deadlines 2021 – June 26 - 30, 2021**

**Wednesday January 13, 2021:** Revised Conference Papers/Final Technical Papers Due  
**Monday February 15, 2021:** Extended Abstracts Due  
**Thursday February 18, 2021:** Conference and Technical Paper Final Accept/Reject Notifications  
**Monday February 22, 2021:** Program Submissions Due / Extended Abstracts Due  
**Friday March 19, 2021:** Extended Abstract Accept/Reject Notifications  
**Friday April 2, 2021:** Program Submission Accept/Reject Notifications

**Phoenix Tracks & Track Chairs**

1. HVAC&R Systems & Equipment: Rupesh Iyengar
2. Fundamentals and Applications: Sonya Pouncy
3. Professional Development: Marites Calad
4. Research Summit: Kristen Cetin
5. Design, Control, and Operation of Critical Environments: Raul Simonetti
6. HVAC&R for Indoor Plants & Animals: Ryan MacGillivray
7. Future Proofing - Renewable, Regenerative, Resilient: Andy Cochrane
8. Hot, Hot, Hot: Nohad Boudani

**Las Vegas Tracks & Track Chairs**

1. Fundamentals and Applications: Robert Cox
2. HVAC&R Systems and Equipment: Anoop Peediyakkan
3. Refrigeration & Refrigerants: George W Austin
4. Environmental Health Through IEQ in the International Arena: Som S Shrestha
5. Refrigeration & Refrigerants: George W Austin
6. Buildings at 360°: Arthur L Giesler
7. Energy System Integration: Farhan Adil Mehboob
8. HVAC for Industrial and Commercial Purposes – Challenge & Opportunities: Bert Phillips
9. Mini-track at AHR Expo – Refrigerant Safety & Performance
