

Programs for the Quebec City Meeting (June, 2006):

Seminar 6

Sunday, June 25, 7:45-9:15 AM

Small Building System Commissioning

Sponsor: TC 07.09 Building Commissioning

Chair: Richard M. Rose, Member, Mechanical Technology Inc., Billings, MT

Concepts regarding the commissioning process differ and can vary from project to project depending on the budget. This seminar addresses approaches to smaller buildings commissioning and solutions to problems that may be encountered.

1. How to Turn a Mess into a Big Success

Jeff J. Traylor, Member, EMCOR Facilities Services, Durham, NC

2. Applying the Building Cx Process to Higher Education Renovation Projects

Richard B. Casault, P.E., Member, Casault Engineering, Seattle, WA

3. Applying the Building Cx Process to New Small Facilities

H. Jay Enck, Member, Commissioning & Green Building Services LLC, Commerce, GA

Seminar 39

Monday, June 26, 10:45 AM - 12:15 PM

Issues Update: Integrated Building Design to Performance

Sponsor: TC 07.01 Integrated Building Design; TC 07.09 Building Commissioning

Chair: James W. Gartner, Member, Four Seasons Environmental, Inc., Monroe, OH

The integration of all parties involved in completing a successful building project is becoming critical. From the preliminary phases of design, through the bidding process, then equipment supply and construction, all the way to the final acceptance and warranty period, potential gaps and lack of coordination wreak havoc on performance. As HVAC industry professionals and engineers, our resulting systems are most vulnerable to these shortcomings. This seminar addresses these issues, and helps provide greater success in bottom line facility performance.

1. Addressing the Totality: From Initial Design to Sustainable Building Performance

Gail Ann Lindsey, Design Harmony, Inc., Wake Forest, NC

2. Commissioning: Assuring Integrated Design Performance

Gerald J. Kettler, P.E., Member, AIR Engineering and Testing, Inc., Dallas, TX

3. IBD in Canada: Is Actual Building Performance Delivering the Goods?

Roland Charneau, P.E., Fellow, Pageau Morel and Assoc., Montreal, QB, Canada
