Purpose:

TC 7.6 is concerned with the estimation, measurement, analysis, benchmarking, and management of whole building and building systems energy and water performance.

TC 7.6 is responsible for the following handbook chapters in the HVAC Applications volume:

Energy and Water Use and Management

This chapter provides guidance on establishing an effective, ongoing energy and water management program, as well as information on planning and implementing energy and water management projects.

Building Energy Monitoring

This chapter provides guidelines for developing building monitoring projects that provide the necessary measured data at acceptable cost.

Agenda:

1. Introductions
2. Commitment to the ASHRAE Code of Ethics – In this and all other ASHRAE meetings, we will act with honesty, fairness, courtesy, competence, integrity and respect for others, and we shall avoid all real or perceived conflicts of interest. (See full Code of Ethics: <https://www.ashrae.org/about-ashrae/ashrae-code-of-ethics>.)
