I do not, but I am copying Mary Kate McGowan from Journal staff, who might be able to answer that question. (Thanks, Mary Kate.) Cindy

Ok, am I getting a hard complimentary copy and a PDF. The link you sent shows the cost at \$137 or \$103 for members.

Do you know when the write up on it will be in the Journal?

Thanks

Pat

Hey, Pat! It should be available now: https://www.techstreet.com/ashrae/standards/duct-systems-design-guide?product_id=2202113

There had already been a bookstore entry because we were offering presales if people wanted it, and I approved the physical copy for distribution last week. So that means all the complimentary copies should be in the mail, too.

I think it looks great, so I hope you all are pleased with it when you see it!

Cindy
