In this and all other ASHRAE meetings, we will act with honesty, fairness, courtesy, competence, inclusiveness and respect for others, which exemplify our core values of excellence, commitment, integrity, collaboration, volunteerism and diversity, and shall avoid all real or perceived conflicts of interest. Our culture is one of inclusiveness, acknowledging the inherent value and dignity of each individual. We celebrate diverse and inclusive communities, understanding that doing so fuels better, more creative and more thoughtful ideas, solutions and strategies for the Society and the communities our Society serves. We respect and welcome all. See:

Notes on Scope website:

TC 1.9 is concerned with electrical systems insofar as they interact with the HVAC & R.

Agenda shows: "TC 1.9 is concerned with electrical systems insofar as they interact with the built environment."

We aren't sure which one is correct.

Frank suggested to have a small committee (lead by Steve Rosenstock & Larry Markel) to come up with a new proposal to update our TC's scope. Larry suggested to possibly form a decarbonization subcommittee within TC 1.9 to help interact with other TCs. Steve agreed to help and wants to pull in some new members to gather their ideas via interim conference. Frank wants everyone to jot down their ideas before the meeting to come prepared for the discussion. Frank proposes an interim meeting for 8/1 from 4:30 - 5:30pm EDT to discuss subcommittees and TC description expansion. All participants interested should submit

comments via basecamp no later than 7/25. Also, please bring ideas that might affect research and/or programs.
