15. Liaison Reports

- a. MTG: ACH – Roger

16. TC 1.6 – Future Efforts / Long Term Plan

- a. Harmonization, Relationships, Other Organizations, Communications

17. Old Business:

18. New Business:

- a. TAC Section 1 liaison from the Publications Committee reached out to see if we had any questions or comments on either existing or upcoming publications that this TC might be working on. Are there any publications that we are considering? Would someone this TC like to publish an article or two in the Journal?

Phil Naughton - Perhaps a journal article on the role terminology places in many other ASHRAE publications. I am part of MTG ACR (Air Change Rate) and we just concluded a research project RP-1833, *Literature Review for Evidence of the Basis for Specified Air Change Rates (ACR) for Cleanrooms, Laboratories, laboratory animal facilities, and health care facilities with medium to high ACR*. There was a significant amount of work in the RP on terminology and the etymology of many of the ventilation terms. Our MTG and it's TC subgroups (i.e. Labs, Hospital, Cleanrooms, etc.) continually discuss the meaning of many ventilation terms. Having precise and consensus definitions of terms is critical to many research projects. Perhaps an article discussing this. I might be open to writing this article or co-authoring it with some others.
